Sustainable Logistics
Solutions with
Transorient Experience

since 1961

Who Are We?

We started our corporate journey with our core competencies in road freight and customs brokerage and with the mission to be a bridge between West and East in 1961.

During half a century, we have stretched our boundaries and gained expertise in Air, Ocean and Intermodal transportation.

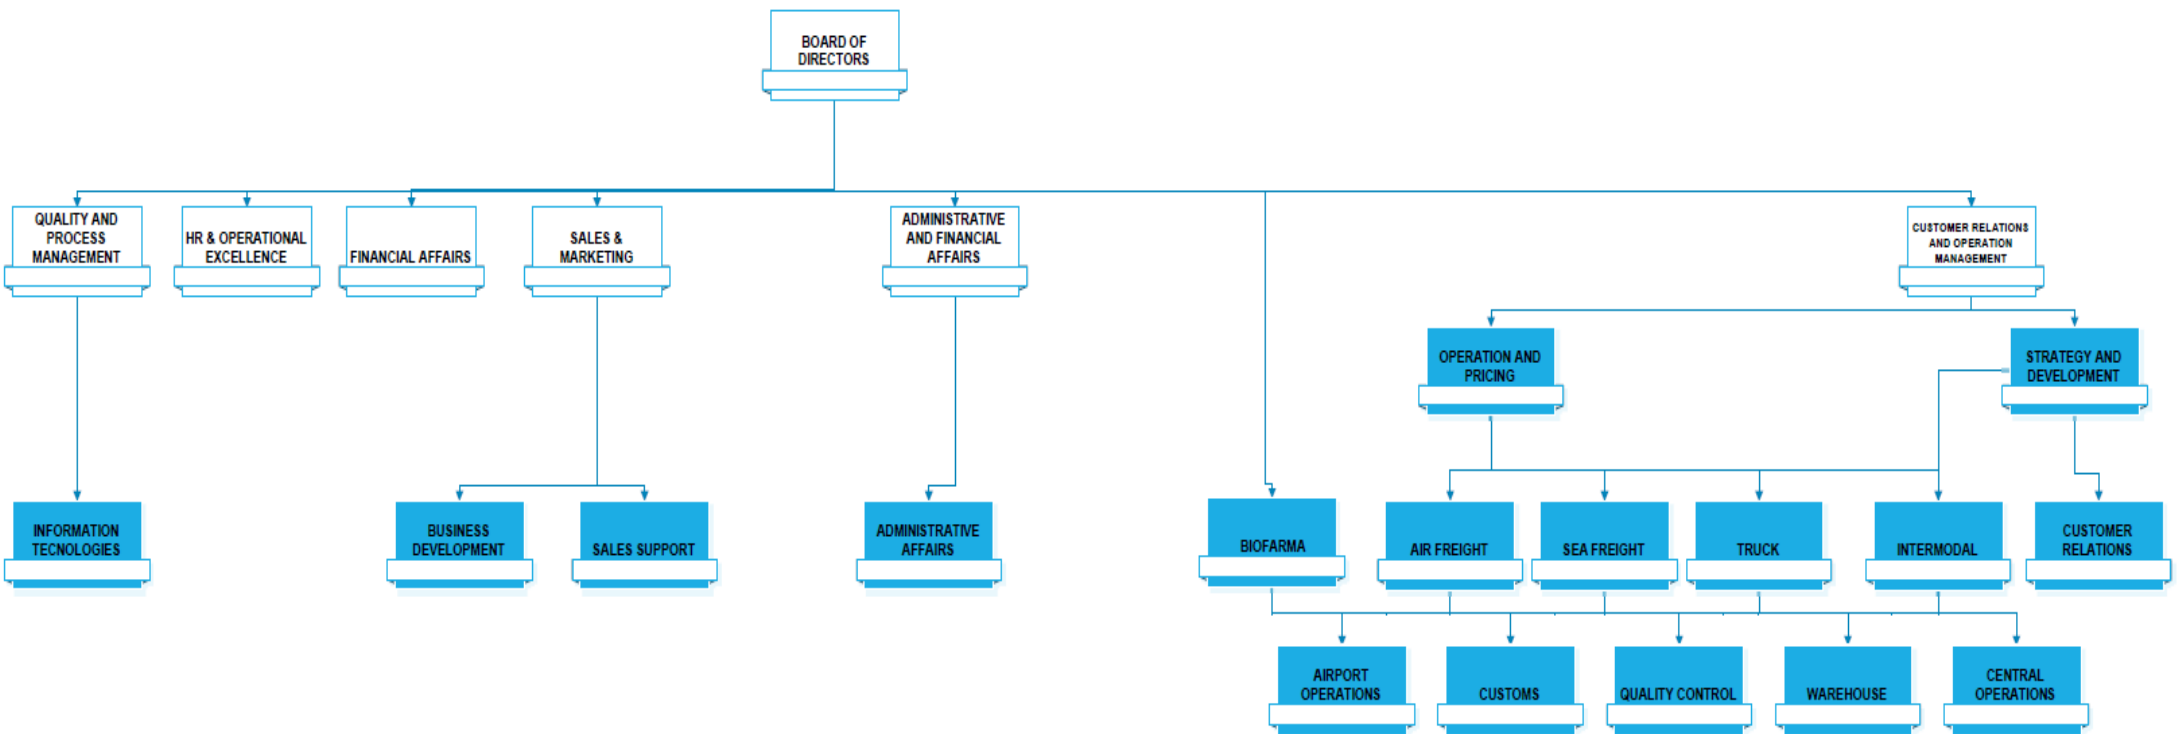

Our vision to add value to transportation by bringing innovative solutions using technological benefits have given us a distinguished position in Turkish logistics sector.

Today, combination of local indepth knowledge, global connections, rigorous and measurable service standarts give us the capacity to offer full range of supply chain solutions at highest levels.

Same Day – Next Day Pick-up – Delivery

OBC – On Board Courier Services to all destinations in Türkiye & Europe

International Transportation

We provide all life science logistics services between Turkiye and other countries in health sector under GDP standards. We are specialized in time critical shipments end to end logistics through temperature controlled vehicles on road freight and envirotainers on Airfreight

Custom Brokerage

- ✓ Expert consultancy on license requirements and customs processes
- ✓ Re-post arrival declarations and e-clearances with direct computer link with customs
- ✓ Brokerage consultancy & pre-arrangements in special projects
- ✓ Obtaining special permits and government licenses
- ✓ Expertise in ATA Carnet & Temporary Imports
- ✓ Handling DAP, DDP & DAT shipments
- ✓ Expert guidance on customs and import license requirements

Clinical Trial Logistics

*We provide integrated temperature controlled collection and distribution solutions for **biological samples** and **sensitive drugs**. We always ensure on time collection and delivery at the required temperature and in good conditions within Turkiye and worldwide.*

We provide accredited packaging for human specimens such as blood, tissue, plasma or cord blood and carry them in different temperature ranges with dry ice or within insulated packaging with gel packs.

On Board Courier Services (OBC)

Our OBC services offer exclusive delivery service for urgent shipments. The collection and delivery of the shipment is carried out by one of our trained and dedicated couriers, with reduced border delays and %100 care & sensitivity. Our OBC Team is available 7/24 and ready to fly any destinations in the world.

Direct to/from Patient Services

We provide Direct to/from Patient Services in order to make life easier for the patients and their families. Direct to/from Patient services increase patient serenity and satisfaction at higher levels. We cover 45 cities in Turkiye including small towns and villages. With the home visits of our experienced and qualified nurses, patients enjoy having service in the peace of their homes while collecting blood, infusion or getting urine samples etc.
